

AUTOMECH
Door Operating Mechanism

AUTOMECH[®]

Miner's fully-automated AutoMEC[®] rapid discharge system is designed to keep up with the coal industry's demand for quick and reliable unloading in motion. 100-ton cars are emptied in less than 20 seconds. AutoMEC's superior design, performance, reliability and low maintenance advantages make it the perfect discharge mechanism for new or retrofit coal car applications.

- ◀ Low maintenance
- ◀ Easy installation on new and existing cars
- ◀ Exclusive secure locking system
- ◀ Long history of reliability

Simple. Reliable. Proven.
