PERFECTING RAILCAR PERFORMANCE

DRAWGUARD FT™

TECSPAK® FRICTION DRAWBAR GEAR

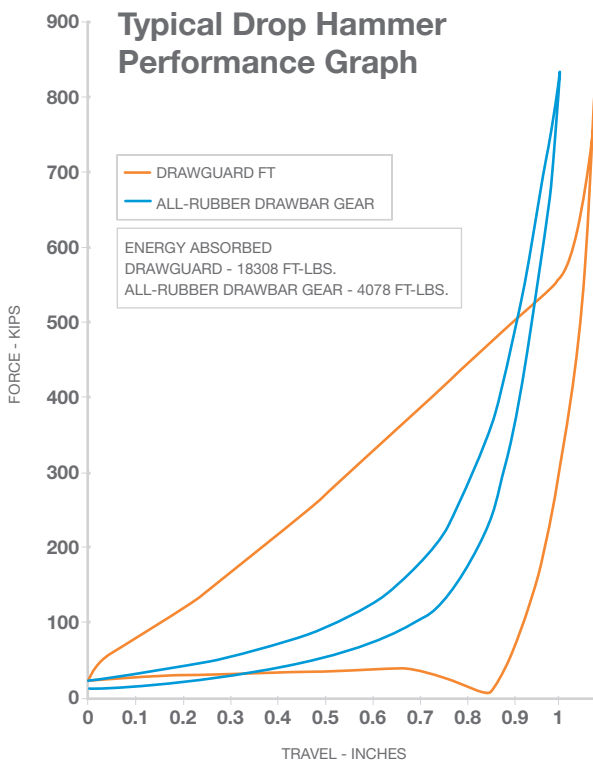

Friction Clutch

amplifies the energy absorption of the patented Tecspak® spring package. This combination results in exceptional car protection over time and service.

Tecspak® Spring Package

provides superior energy management and a consistently robust spring performance.

Features

- Rigid steel housing absolutely limits travel to one inch
- Housing liners enable economical reconditioning
- Fits standard 24-5/8 inch draft pocket
- Lightest weight drawbar gear at only 285 lbs.
- High energy absorption
