

M-901E draft gear

TF-880™

Light weight. High performance. Proven reliability. Just a few reasons why the Miner TF-880™ is the most widely specified gear in the industry. And the only friction elastomer gear with over 30 years of experience and more than 1 million in service.

- ◀ Maximize Railcar Protection
- ◀ Minimize Life Cycle Cost
- ◀ Reliable Performance
- ◀ Unmatched Experience

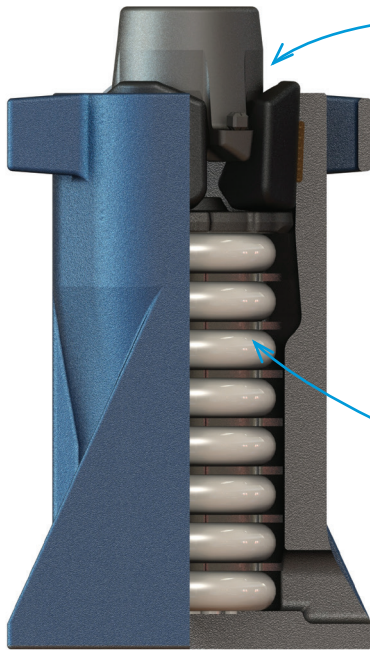

Maximum Protection.
Unmatched Experience.

PERFECTING RAILCAR PERFORMANCE

TF-880™

M-901E TECSPAK® FRICTION DRAFT GEAR

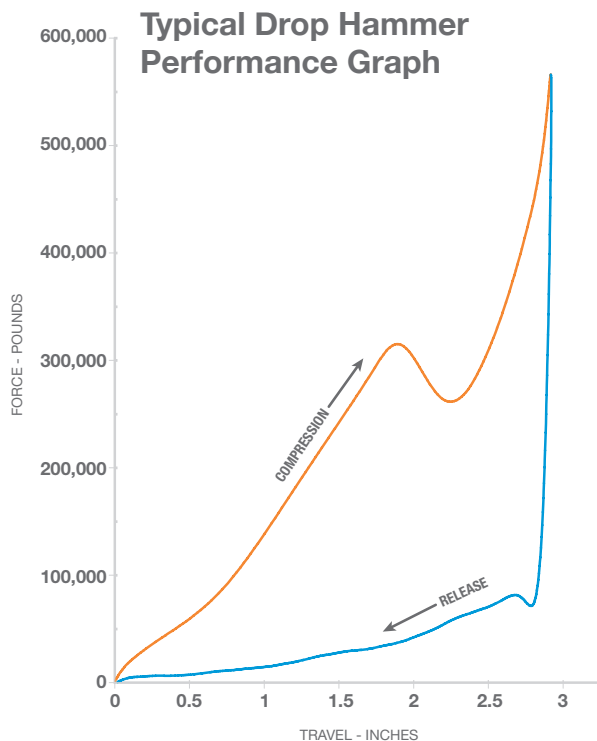

Friction Clutch

amplifies the energy absorption of the patented TecSPak® spring package. This combination results in exceptional car protection over time and service.

TecSPak® Spring Package

provides superior energy management and a consistently robust spring performance.
